Re: NCD003149556

Dear Mr. Beitner:

On January 5, 1984, in response to a formal call for part B of a permit application, an officer of your company advised this Branch that a part B application would not be filed. Following this, on January 29, 1984 and February 1, 1984, the Solid and Hazardous Waste Management Waste Management Branch of the Department of Human Resources published a legal notice in the Raleigh papers, announcing its intention to deny a permit and terminate interim status for a number of plants, including yours.

You are now advised that this plant has been denied a permit as a hazardous waste treatment, storage, or disposal facility and its interim status has been formally terminated. As of March 30, 1984, the operators of it may not treat or dispose of hazardous waste, nor store it for more than 90 days from the of accumulation.

If you have any questions about this matter, please call or write to Mr. Keith Lawson at this office.

Very sincerely,

*[Signature]*  
O. W. Strickland, Head  
Solid and Hazardous Waste Management Branch  
Environmental Health Section

*per Keith Lawson to RAT  
3/15/84 This means that Asheville  
is recognized as a generator  
only.*
